United States District Court
 Eastern District of Michigan
 Southern Division

8

Rio Peter Zammit
 Plaintiff

Case No. 14-14155
 Honorable Nancy D. Edmunds *

v.

Internal Revenue Service, et al.,

Addendum to my Motion for Reconsideration
 to retain Clinic Defendants because they do
 "act under the color/cover of state law."

Comes now, Rio Peter Zammit, with his addendum-
 attachment of the January 9, 2015 issue of "the
 Michigan Catholic" that documents and explains
 the closing/license suspension of Women Center/WomanCare
 on Southfield Road in Lathrup Village, Michigan
 as well as a call for the "permanent closure, investigation
 of 4 others."

I ask the court to please, since the court
 "should and must" share all the previous attachments
 of my original motion for consideration (you recently received)

with the Judge who closed WomanCare on
 Southfield so she/he can see all the evidence,
 against WomanCare since the 1980's! WomanCare's
 Michigan (state) Health Codes (state laws) violations
 have been numerous, deaths due to botched abortions
 of both mother and child many, and most
 especially due to Dr. Alberto Hodaris (now retired),
 horrendous disregard for human life:
 mother & child. I prayed outside WomanCare/
 Woman Center in 1998 to 2002. I saw women
 carried out in the arms of her "husband" after an
 abortion. I saw WomanCare paid escorts
 forbidding women to carry fetal development
 images of stages of pregnancy into the clinic
 which we gave them so as to see how their
 baby looks and how visible and beautiful
 her baby was so perhaps she would
 elect to have her child, keep a part
 her child up for adoption as an alternative
 to killing/aborting her baby! But the "escorts"
 confiscated our materials which are ordered to
 be given to them by the Michigan Health Code!

this woman's intent was to prevent informed
 consent prescribed by the Michigan Health Code.
 Violations of the 24 hour waiting period to get counsel
 from family or friends were numerous by WomanCare.
 How was this clinic allowed to remain open
 these past 20 years? It seems that lack
 of inspections are the "norm" as was the case
 of Dr. Kermit Gosnell's abortion clinic in Texas!
 May this court share all this information
 with the judge who closed (suspended)
 WomanCare and help in the investigation
 of 4 other clinics. WomanCare should be
permanently closed! The women who died
 there would be living today if the Michigan
 Health Code would have been enforced
 over the last 20 years! These women who lost
 their lives there were not forewarned! The
 clinic was "money driver" - not "patient-care driver!"
 (WomanCare an oxymoron!)
 Since WomanCare/Woman Center is owned by
 Dr. Jacob Kalo (whom I know well personally) still has

his license, the "stand alone clinic" that has been suspended. Thus this Clinic is operating "under the color/cone of state law!"

Thus all Clinic Defendants listed in this my case should be retained - lest they, too, be allowed to operate in great risk to women who are victims of these clinics' profit-oriented work ethic not the care of women. Additionally women who have had abortion (post-abortion women) have a higher average of suicide than the national women average of suicide. Abortion (especially pressure) hurts women physically, mentally, emotionally and spiritually. But "Project Rachel Retreats" can help women to find healing, peace, love and support! May this court please retain all

Defendant Clinics. They are not "private entities". They are state approved / or disapproved, state-Health-Code / law-regulated, state and federal taxes supported. These abortions are paid for by state + federal taxes! The Michigan Health Code / law is signed by the Governor - our State Governor: under his "color + cone of state law!" Thank you, ProLife Feminist
 attached to defendant's record by mail 11-11-15.

An answer to prayer: Abortion clinic's license suspended

Local pro-life advocates call for permanent closure, investigation of 4 others

MIKE STECHSCHULTE
The Michigan Catholic

SOUTHFIELD — If frequent vigils, life chains and petitions are any indication, it seems prayer does work in powerful ways for the local pro-life community. After a Southfield abortion clinic, the Women's Center on

I've been thinking a lot about how the angels rejoiced at the birth of a baby. They were pleased that God became a human being, they were happy for us, that our salvation was unfolding like that. And here we're so dismissive of children — not just the ones that we're aborting, but even those we allow to be born. ... It's so very common, and it's sad because even the wanted children aren't truly wanted.

Praying for a new Pentecost in the Archdiocese of Detroit

suspended by the state of Michigan in late November for repeated code violations, local pro-life activists gathered to give thanks and call for its permanent closure during a Dec. 23 news conference.

Barb Yagley, director of the Southfield location of 40 Days for Life, called the suspension a "great blessing" and the result of many hours of prayer in front of the clinic, but added it should also make people consider the consequences of abortion.

"We're asking the community to do a bit of soul-searching as to their perceived need for these types of services," Yagley told The Michigan Catholic. "(The licensing failure) should give people pause for thought about what is it about abortion that distorts or corrupts the people who are practitioners."

According to Lynn Mills of Pro-Life Detroit, the clinic failed several state health inspections and was ordered by the Michigan Department of Licensing and Regulatory Affairs to suspend all surgical procedures, including abortions, pending a March 4 hearing by the state attorney general's office, after an attempted late-term abortion in February 2014 resulted in a woman's hospitalization for a perforated uterus, hemorrhaging, and emotional and physical trauma. The

abortionist who performed the procedure, Dr. Reginald Sharpe, is also currently under state investigation.

According to the order, the clinic may remain open for physicals and patient counseling during the suspension, and still may refer people seeking abortions to other locations.

Mills said the clinic had failed at least five state inspections in the past year ranging from failure to discuss risks and complications prior to obtaining consent for an abortion, failure to offer ultra-

sound images to mothers and not having a registered nurse in attendance during an abortion, as well as numerous hygiene and safety violations.

Despite such frequent violations, Mills said, it was the February victim's coming forward that ultimately spurred the state to action.

"I don't think victims know or understand that they can file complaints and be 100 percent anonymous — not with the

will return to the nation's capital the annual March for Life Jan. 20 The 42nd rally on the National Mall and march to Capitol Hill marks the anniversary of the Supreme Court's 1973 ruling in the case of *Roe v. Wade* that invalidated state abortion restrictions on abortions, legalizing abortion virtually on demand. Micaiah Bilger, education director of the Pennsylvania Pro-Life Federation, said she sees the march as an opportunity to move forward from *Roe v. Wade*.

"The March for Life is, I think, the biggest human rights rally to the world and it's wonderful to be with other people and understand that cause," Bilger said. "It's important for us to stand up in front of a nation's capital and say, 'Abortion is a human rights injustice and we want to see all life protected.'"

The Pennsylvania Pro-Life Federation usually brings a few hundred participants from around the state, Bilger said. The range of people attending — from high school students to older men and women who have been going for many years — offers an opportunity for participants to share the same beliefs about abortion. "We have a really good, diverse group of people that go down every year," she said. "There are many young people who are going to be part of the march."

Dear File Clerk,

Please place this
addendum with
my motion for reconsideration
you received last week -
(or perhaps today.)

Sincerely grateful -

cc: Case No. 14-14155

Case No. 14-14155
Honorable Nancy G. Edmunds

v.

Internal Revenue Service, et al.,
Defendants

Motion for Reconsideration to retain
Clinic Defendants because they do
"act under the color of state law."

Plaintiff, Pio Peter Zammit is most grateful
for her honor's granting me to proceed in forma
pauperis. The Honorable Nancy G. Edmunds is
gracious and sensitive to my condition.
May the Court, also, please review all the
attachments of the Michigan Health Code as
well as all the attachments related to civil
law suits against WomanCare of Lathrup Village
and related materials that absolutely show that
all "free standing clinics" do "act under the color of state law."
Sincerely grateful, Pio Peter Zammit
service: ^{motion} Copy was sent to Defendants of record, today, Jan 8, 2015
